

## Aluminum & Fiberglass Screen Wire

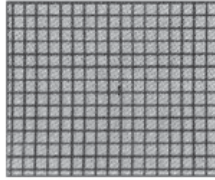

18 x 16  
Fiberglass Screening

- Will not shrink, rust or dent
- Resilient, easy to use, and long lasting

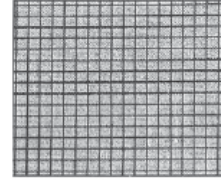

Screen-Tech's standard grade fiberglass screening is recommended for windows and doors

18 x 14  
Fiberglass Screening

Recommended for patio and pool enclosures. The thicker wire diameter and slightly more open mesh make this the perfect choice for large areas such as porches, patios and pool enclosures.

18 x 16  
Aluminum Screening

Aluminum Screening is tough and durable. Protective finishes prevents corrosion and contributes to a long life. Will not rust or mildew.
